**J.L. Wallace Awarded Contract for Construction of the new  
Captive Fire Station**

FORT MYERS, FL. (April 10, 2014) – J.L. Wallace Inc. has been awarded contract with the Captiva Fire Control District for the construction of their new fire station.

Construction will consist of the complete demolition of the existing fire station and construction of a new 6,110 sq ft fire station with extensive use of Hardi-Board siding and Ipe hardwood canopy including metal trellis work to provide a unique fire station representing the Upper Captiva style. The work will also include sitework with underground storm water storage and septic tank.

Ted Gadoury will serve as Project Manager with Robbyn Spears acting as Project Manager Assistant and Ted C. Gadoury as superintendent. Architectural design services for the fire station are being provided by Sweet Sparkman Architects and engineering services are being provided by Avalon Engineering.

Based in Fort Myers, Fla., J.L. Wallace has provided general contracting, design/build and construction management services in Southwest Florida since 1997. The company specializes in commercial projects, including structures for retail, industrial, institutional and office use.
